*Mechanical Seals Total Solutions*

# Double Mechanical Seal - ISPL 2408

**Applications:**

- Unbalanced multispring, double seal
- Easy to install and replace
- Independent on direction of rotation
- Pumps handling highly volatile and toxic fluid
- Slurry, abrasive applications

The seal is a combination of two conventional seals installed back to back inside stuffing box. Combinations like unbalanced / unbalanced, balanced / balanced, unbalanced / balanced can be provided as required. A compatible clean liquid with pressure higher than inside fluid pressure is circulated to reduce heat generated on the seal face. Various seal face materials are offered to suit different service conditions.

ISPL-2408 DMS Back to Back Arrangement

ISPL-2408A Back to Back Arrangement

ISPL-2408C Tandem Arrangement

ISPL-2408B DMS Face to Face Arrangement

ISPL-2408 D
