## Grinding Mill Double Cartridge Seal - ISPL 2427

- Double seal
- Independent on direction of rotation
- Spring product protected
- Temperature maintained by cooling oil

### Applications:

- Commonly used for paint, slurry / abrasive liquid in grinding mills

Double multi-spring pusher, cartridge seal, specially designed to operate in slurries where corrosive, toxic or volatile liquids are being handled & a single seal is not acceptable. Cooling liquid provided to maintain temperature & minimum friction between both faces. Spring loaded stationary maintain equal pressure on both side because of common springs.

ISPL-2427 DMS for Grinding Mills
